EAST COAST BRAKE REBUILDERS

ECB20 FF Premium

- Resistant to wheel end contamination
- Medium friction asbestos-free brake block
- Glass-acrylic-based fiber
- Excellent drum compatibility and friction stability
- Low sensitivity to speed and temperature
- Low thermal expansion provides great compatibility with automatic slack adjusters
- Moderate to heavy-duty applications
- Ideal for over-the-road trucks, tractors and trailers
- Brake performance and lining exceeds the competition within the same category

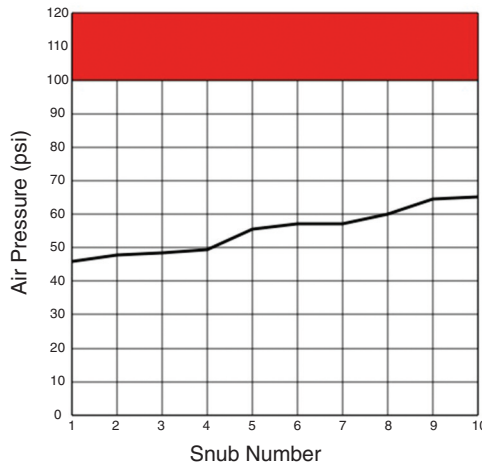

Brake Effectiveness

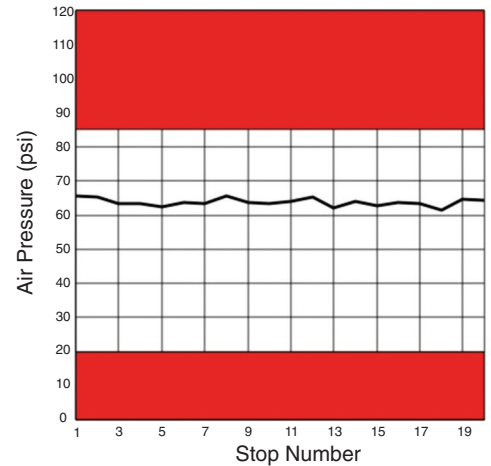

Shaded area indicates non-compliance
